## ABOUT WENGER

---

The Wenger story started with the manufacture of cutlery, deep in the heart of the Jura mountains, where many of Switzerland's finest watch brands are located.

Founded in 1893 in Delémont, the Wenger company developed rapidly when it started producing the famous Swiss Army Knife for the Swiss Army. In 1997, The Wenger Watch company was established at the hub of Swiss watchmaking, in Biel/Bienne.

Following the principles set by the Swiss Army Knife, all Wenger watches are developed to withstand extreme conditions, such as cold, humidity, water-pressure, shocks or magnetic fields. Meanwhile, multi-functionality, quality and reliability are also features of every Wenger watch, from the sporty gents Seaforce chronograph to the ladies and gents refined Urban Classic models.

# WENGER ARCTIC LIGHT PROJECT

The Wenger Arctic Light Project is all about showcasing the beauty of the far north and creating an understanding of the living conditions for both animals and people living in this part of the world. The Arctic is by far one of the wildest and most inaccessible places left on this earth and the place is a treasure of natural wonders. But it is also a place that is facing changes unlike to what we have ever seen before. Global warming, arctic mining for oil and minerals and an exploitation of the whole zone for a world that has gone hungry for natural resources. All of this creates problems as well as opportunities for everybody living there. But all of these things need focus and attention. The Wild North is not a one-sided story about conservation,

it is about reality. It is about a true care of nature, that I believe lingers within all of us and a love that anyone who have ever witnessed the Arctic will understand. The Wenger Arctic Light project will try to inspire people around the planet to do what we can to make sure that this amazing place will also exist for the future generations to enjoy.

I am proud to work with Wenger as the sponsor of the Arctic Light Project. So if you are interested in the future of the Arctic, please join me on Facebook where you can read all the new stories, see links to published articles and comment on the newest photos and videos.”

同瑞士多用折疊刀一樣，計時器的製造也是將功能性和持久耐用這兩點放在首位。瑞士製造的手表都有為期三年的國際聯保，劃分為幾類產品，囊括了不同的應用類型——運動型、休閒型、職業型，還有適用於隆重場合的豪華型。

每一塊手表中都再現了瑞士多用折疊刀的基本素質：創新、功能、信用，除此之外，還有超值的性價比。

كما عليه الحال فيما يتعلق بمطاو الجيب السويسرية فإن كفاءة وتنوع الأداء الوظيفي والمتانة والاعتمادية تحتل موقع الصدارة أيضا عند تعلق الأمر بآلات قياس الوقت الدقيقة. الطرز المصنوعة في سويسرا مشمولة بضمان عالمي مدته ثلاث سنوات، ومقسمة في مجموعات منتجات متعددة، وتغطي كافة أنواع الاستعمال المتنوعة - سواء في مجال الرياضة، في مجال أنشطة وقت الفراغ، في الحياة العملية اليومية وأيضاً في مجال المناسبات الخاصة.

في كل ساعة فردية تلتقون وبصورة متجددة بعناصر الجودة الأساسية لمطاوة الجيب السويسرية: التحديث الابتكاري، كفاءة وتنوع الأداء الوظيفي وعلاوة على ذلك التناسب الممتاز بين الثمن وكفاءة الأداء.

スイスのポケットナイフと同様にクロノメーターにおいても機能性と不変性が大事にされています。スイスメイドモデルは3年間の国際保証において、多くの製品ラインに分けられており、スポーツ、レジャー、毎日の仕事、あるいはお祝い事をも含め、あらゆる用途に対応できます。

どの時計においても、技術革新、機能性、信頼性、そしてこれに加えて素晴らしいコストパフォーマンス率というスイスのポケットナイフの基本的品質を見出すことができます。
